COMMENT OF THE DAY

Germany's Future

THE Allied occupation of Western Germany has ended almost exactly ten years after the fall of the Third Reich in 1945. Westefn Germany becomes a sovereign Republic again, temporarily partitioned albeit by the continued Soviet occupation of the eastern zone. Euphemistic sovereignty has done to alter occupied status. But Moscowdirected Communism set up

territory has been given a

puppet regime.

A natural fear in the West today is that Dr Adenauer share his predecessors in post-World War swept away, not by electoral landslide but positive - avalanche feeling for Moscow's plan reunification neutralisation. Russia seeks for unity

Russia says, can be retry's problem and Austria's Soviet - occupied Germany is a Communist meeting pro-Western ties for the Russian ideal of neutrality, whole country.

There is no comparable Soviet regime in the Eastern zone of Austria and therefore If Western Germany the other foreign ministers in values the democracy state treaty. has established in the last 10 years, there can be no Soviet plans.

sters are now pressing for a meeting to win agreement on its policies which have the clear support of a still strong element of realistic Germans. But the tide of feeling appears to be swinging in the Russians' favour. Dr Adenauer carefully to retain ascendancy and he will not structure of his Republic.

Hongkong Heading For New Record At BIF

Strikes Confident Note

Washington, May 6. The United States Secretary of State, Mr John Foster Dulles, leaving attend a North Atlantic Treaty Council meeting Paris, said today that the restoration of West Germany's sovereignty and the Austrian treaty negotia-Western tions opened up "new tumbling vistas for accomplishment" by the Western alliance.

Mr Dulles said he was looking OMPLETE sovereignty, forward to welcoming West Germany's 'representatives into stored on the same lines as the NATO council room next it proposes to give freedom | week and he added that he was to Austria. Do Germans leaving Washington with greater really believe their coun- confidence than he felt on any previous mission he had taken as Secretary of State. NEW CHAPTER

"I truly believe that our in Paris, where we if re- will welcome a newly sovereign upon a Western Germany into the Atlantic re- alliance, will begin the writing nounced her NATO and of a chapter in the European story—a chapter which will record the realisation of a new Europe united, free and secure, would soon engulf the of which men of vision have so flong dreamed." he said. "And it may be that even as

TREMENDOUS INTEREST

FROM OUR OWN CORRESPONDENT

London, May 6. The amount of new business initiated on the Hongkong stand at the British Industries Fair is almost certain to set a new record this year.

By this evening, with seven days still to go, ing an Austrian state treaty the number of bona fide trade enquiries recorded on the stand had reached 480. Last year there were 638 spread over the full eleven days of the

The Hongkong Government's London office said tonight that the enquiries appeared to divided between British and overseas buyers. Last year two-thirds of the enquiries were from home buyers.

A feature of business on the stand has been the number of enquiries for goods that have been attacked by British manufacturers for some alleged infringement country. of fair trading practices. Buyers seem unimpressed by allegations that these goods are Japanese products in disguise. Five minutes' conversation with any of the numerous helpers on the stand is sufficient to convince all except those who refused to be convinced that everything may be put off until June. on display is a genuine Hongkong product.

But interest has not been confined to the goods that have been in the news for one reason or another. Nor is it shown by trade buyers alone. The public is admitted every afternoon and the Hongkong stand has attracted some of the largest crowds at Olympia. Most of the people are amazed at the variety of goods on display, and when questioned, confess that they had no idea Hongkong had such highly developed industries.

we buy these things?"

Russians To Avoid Fingerprinting

Rough Riding On The River

"Smoke Signal" is one of those pictures you think you know all about before you go to, and discover before the end that although it has the usual ingredients, a better than usual western casserole has resulted.

I'd compare in favourably with many of the efforts the horse and gun school has given us-it's no "Shane" or "Ox-Incident", but there's point to the story, the actors seem each to have read the whole script instead of his or her part plus the cue lines immediately preceding, and the river that snape hungrily at the small party who entrust their lives to it seems to be the ever-present menace the story writer meant it to be.

Dana Andrews is a cavalry officer being taken down the treacherous Colorado River to stand trial for desertion to the Ute Indians. These same Ute Indians, far from being grateful for his championship, harry the small group all the way; they never came close enough to be seen but arrogantly indicate their presence by smoke signals, pot shots at the boats on the river and torturing and killing any straggler rash enough to detach himself from the main party.

The daughter of the dead Commandant of the post Andrews has deserted feminine, conservative, passionately devoted to the truth, (and, let's whisper it, in spite of her prettiness, verges on the blue-stocking) plus being engaged to another cavalry officer. This doesn't, stop her from being interested in the prisoner. Feeling is strained by the fact that it is the prisoner's advice, based on his knowledge of the Indians, that must often be taken by his captors. When they disregard it, there are

I've said some sharp things they'll be able to explain to about Piper Laurie in the past, you the bits you can't underbut she seems to have been coachd quite efficiently for this part and makes the Army daughter a believable person whose counterpart you might recognise.

Emeralds And Coffee

Through a series of unlong avoidable mishaps I was not able to see "Green Fire" before this column went to As the Father Brown of G.

For your guidance, the story tive stories he is at his most deconcerns an adventurer and his lightful-in fact I don't think partner-Stewart Granger and Paul Douglas-whose search for screen role I liked so much. Departing from solutions found for other big towns all over the world, both groups are also against abolishing the use of streetcors considered by them to be a first rate mass transportation facility.

Not only should streetcars remain in circulation, they say, but means should be found to increase their frequency in existing ones. order to cope with the expected larger flow of passengers.

Normal Increase

This larger flow of passengers future on this project for the travelling to and from the centre of the town, in the opinion of the experts, is partly due to the normal increase in population and partly to longer distances between offices and homes created by new suburbs in the outskirts.

Trams however have to vanish from the already overcrowded streets, and should be confined to specially constructed tunnels below the main roads, thus helping to ease the problems on the surface.

Replacing trams by buses or possible but not advisable, as it would only create additional traffic jams.

Even an underground railway to service the centre of the town would not be a recommendable solution, due to the distance between the stations that could only be overcome by additional buses.

"Traffic Hub"

group under Professor Kurt Leibbrand of Zurich and Philipp Kremer from Hanover, Germany, wants to make the Zurich main station the hub of this city's future

Two rapid underground railway lines crossing beneath the station building, should provide the "traffic hub" with a fast to the __distant The station roof should also be put in use by turning it into parking lots, a bus terminal and a heliport.

The present traffic centre of Zurich, the Bellevue Square, needs complete remodelling, say

In "Passage Home" she gets pleasantly over the girl for the rolled all over the ship in a terrific storm. In her new film "Woman for Joe." she appears in tights, striped bathing suit, and a

white cloak. This makes nonsense of her claim that she will never pose for pin-up pictures and she

knows it. Miss Cilento knows a lot of things in fact. She is shrewd, she is beautiful, she is talented -and she knows how to get herself talked about. (By riding around town on a motor-scooter, for example, in tight-fitting

. jeans.) Watch for her. She will soon be a star.

From Gordon White

Wellington, N.Z. INTHEN a dark-skinned ▼▼ adventurer called Kupe stepped into a canoe on some Pacific island 1,400 years ago and paddled southward to New Zealand, he did not know what he was starting.

"He did not know, for instance, that his trip would long after start one of the biggest property claims known to history. Bigger than anything the Communists

have ever tried. Kupe's cance ground ashore in New Zealand about the year 550. Eight hundred years later many more followed in a greater migration — some say from Hawaii—setting out in their long outrigger canoes. guided by the stars alone, and reached New Zealand, half dead, after one of the greatest navigaing feats in history. They had paddled southward

for weeks — men, women and children—the first ever to make the long voyage, following the four stars of the Southern Cross, until they saw land. At first it looked like cloud

on the horizon. And they called it "Aotearoa" (land of the long white cloud)."

New Colony

There they set up their new colony, and today they number 125,000

The first white man didn't come until 1642. He was a Dutchman called Tasman, who didnit land, but gave New Zealand its name. In 1769 a British captain.

Tames Cook, rediscovered New Zealand, charted and mapped it, fought with the Maoris here and there and declared it

Then last week in the Maori Land Court, a Maori, proudly remembering the voyage of his ancestor Kupe, claimed the 63.986.000 square miles off the Pacific Ocean—which, he said. was really "The Sea of Kiwa" -es the property of the Maori The judge nodded sternly

when hearing the evidence of the claimant, brown - skinned that though the court had very wide, powers he did not think it had powers that wide hardly wide enough even to stretch otriside New Zealand's territorial

THE NEW ITALIAN WAYS WITH STRAW

the sun? Don't you be-For - provided startlingly new things to wear under it.
They showed some of them
at an exhibition recently.
The exhibition was at

Kingston-on-Thames near London, once just a pleasant little market town where the kings and queens of England were crowned, now a busy over-grown suburb which boasts one of the best department stores outside London.

It was like stepping into a corner of Italy: banks of flowers filling stone vases, pictures of sunlit scenery on the walls, and even gondola-genuine Venetian, brought straight from the city of gondolas, cost price

If this sort of thing is going to spread thensuburbia here I come. A trip round the exhibition was as good as an hour's window in Rome shopping Florence.

Artistic Touch

the covering for a chianti wear them with a long circular, and woven in a cigarette ends!

"bits and pieces", as she called

A selection of Italian ways with straw; tapered alacks in straw embroidered ootton; sandals with straw trimming; circular straw skirt woven in a shell pattern; and a roomy straw handhag with bamboo handles. variety of intricate designs. Another umusual way with as in the States, production of made with a variety of illustrated here. They introduce ahead of the Continent, coloured straw. There was a new black cotton—shape— But there were other things one, brilliant green, woven retaining as well as handsome, beside fashion at this exhibition. which has a woven design in There were Italian goods-food,

Fashion news was in in a delicate shell pattern silver coloured straw. Yellow leatherwork, glass, pottery, umstraw and in shirts. The and one in patchwork raffla trellis-work trims the brellas-in such veriety that Italians use straw artisti- squares of pink alternating pockets and yellow raffia the Italian Ambassador controlly for everything from with silver. Depending on are cut on the tapered lines of to him. the trimming on a sandal to the weather, Italian girls current fashion. bottle and, believe it or not, sleeved sweater in fine black illustration, can be decorative as for skirts. These were full, wool, or a short sleeved cot- well as practical when trimmed

Sandals, as you see from the either circular or semi- ton blouse-but beware of the Italian way. They have are topped with white daisies or a fringing of natural coloured A piece of frippery ideal for a holiday wardrobebut not for town, please.

Straw also made capacious handbage with bamboo handles, and colourful, realistic posies for your buttorhole or dressing-

Striking Shirts

be given the Otalian look. They were made in cotton so fine that It felt almost like sik. They double tramline stitching on the seams. Patterns were strikingmost so, a design of bridges and skylines etched in black on a blue ground-typically Italian o land a good find for the souvenir

Not so lucky were those who looked for off-the-peg cotton dresses. The few in the exhibition were expensive by our standards. For in Italy, as in France, the little-dressnakerround-the-corner still reigns supreme and there is little dehand for ready-made dresses in the shops. It is still the local dressmaker, not the big fashion concern, who popularises Dior. So Italian off-the-peg cottons could not hope to compete with own—nor would they seriously attempt it. In Britain,

Eye Shadow Application

TAYE shadow may be a problem to women who want to wear it but haven't found the best application method.

It's not too much of a problem these days. Shadow is a creamy cosmetic that goes on easily, making the lids attractive and calling attention to beautiful eyes.

Before using eye shadow, apply

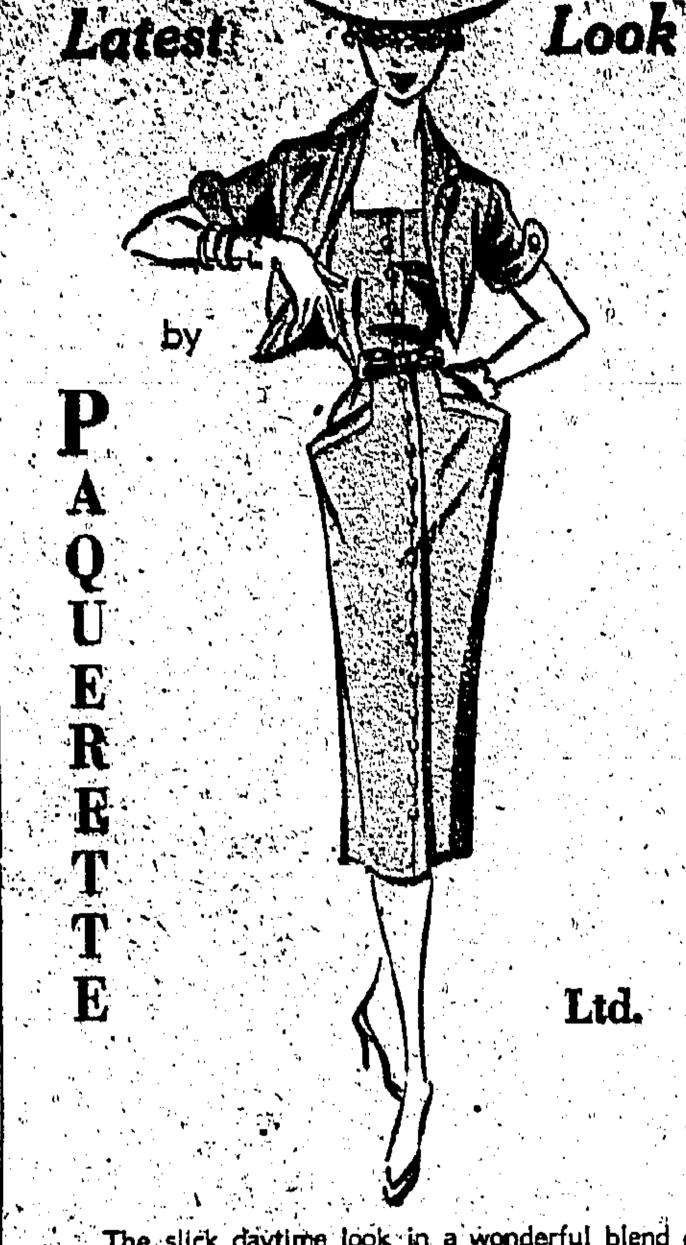

thin cream to the lids. Friction

it along the line of the lashes. They thrive on lubrication. Dip your finger into the shadow. Start the application at the inner corner of the eyelid, spread lightly upwant end outward. The colour should extend as far as the terminal of the

eyebrow. As it sweeps upward

the colouring should be faint. Experiment and you will bli upon a pleasing postern. It may be wise to buy several shadow shades. Blue is good on blondes and brunkites. The redheed will first a forest grown levely, as it but secents the flaming bear.

Bronze tones are the best bet for the girl with golden skin and

The slick daytime look in a wonderful blend of cotton and dacron called "Checkazine". Easy as can be to launder, and after many hours of wear --- never a wrinkle. This and many other crease-resisting fabrics featured in newest styles now on display in our spacious air-conditioned showroom.

second of a series on how girls in budget on £12 for a smart outfit

FOR THE GIRL IN PARIS

who is not so slim on the hins.

By MARION BARWICK

EING able to buy all your clothes in Paris, the Mecca of the fashion-shoes and, if possible, gloves exactly go with the skirt," she Here are the various items conscious girl, may sound and stockings, for her new said, "but it'll look wonderful which Jacqueline bought and wonderful. But when you separates. Her suit was black, with my suit." It was a pull- their respective costs: wondering. But when you separate and so she decided to choose on clocke type with a wired are a working-girl, like and so she decided to choose on clocke type with a wired are a working-girl, like gay colours to go with it. The brim and a mock leopard-skin Skirt Jacqueline, who earns an skirt, she thought, should be a crown. "Foolish but fun" was Sweater month as a secretary, it is We finally found what she shilling piece of frivolity. possibility as for someone her small waist, the same skirt nylons. living across the Channel. in the "adult" departments was Prices all round are high in far too big for her.) It was in Paris, and Jacqueline, living in beautifully flat pleats that alone in a tiny flat, is often gave it a slim look and at the hard-pressed to make ends same time plenty of room for meet. Not that her rent is movement. The price: £2 10s terribly high, but every- as she had expected to spend thing else, especially food, far more on this, her main item. is incredibly expensive. Her lunch costs her anything sweater. She chose a bright from ten shillings for a picked up one of the colours in salad snack to a pound or the skirt. This was more exover for something more pensive: £3 4s 0d. substantial.

And so Jacqueline has to limit herself very severely when it comes to buying new clothes. Prices are extremely high, even for the simplest things, things which may well be copied abroad and sold at a quarter of the price. "Little dressmakers" 'round the corner' are cheaper," -Jacqueline told me, "but they're always very busy, and I haven't yet found one to take me on." So when she goes shopping, she has to concentrate on separates that will blend in well with her existing wardrobe. Here again, life is rather difficult for her. None of the stores cater specialfor her limited budget, and she has to spend a great deal of time shopping around before she discovers what she wants at price she can afford. In fact, it is impossible to get an outfit for £12 in Paris.

VALUABLE ASSET

RAYMOND CHANDLER

I CONFESS

The author whose books are found in statesmen's suitcases, are read by bishops in trains—and devoured by millions of ordinary people—is Raymond Chandler. He has turned detective stories into literature, as well as gold mines. Over the past 15 years—in best-sellers and best-filmers such as "The Big Sleep," "The High Window," and "Lady in the Lake"-he has added his own creation, Philip Marlowe, to the gallery of unforgettable fictional detectives. Marlowe, of course, is a hardboiled, indestructible "private eye." And RENE MacCOLL decided to assume the Marlowe technique when he interviewed Chandler this week in London. Here is MacColl-Marlowe's report.

"I've no special knowledge about the police...

man who has slugged a million dollars out of a typewriter.

was wearing my suit, the new one, and display couple of cops casually, and handkerchief," brown suede if I want a particular piece of shoes, matching socks with darns in them. moderately healthy.

The rain had stopped, and all imagination, there was the clean, sharp smell of sparrows in the air. The place had a front-door, and I was standing there wondering if it opened outwards, when the commissionaire slid me a remote, ageless look, finished biting his nails, and went in-

Britain rich enough to avoid a return to the ration book? Mr R. A. Butler or Mr Hugh

Gaitskell? These are the issues on which the main part of the General Election campaign is to be fought.

Now why?

ON taking over from Sir Winston Churchill as Prime Minister, Eden decided to go right ahead with a General Election. Why?

THE SOCIALISTS say it is because Butler fears an cconomic crisis in the autumn. They claim that "Tory freedom does not work"

THE TORIES say Eden wants to get on with negotiations with the Russians and that these should be conducted by Government with a fresh confidence vote and not by one nearing the end of its life. Here is how the election guns are loaded on the fundamental peace-or-war issues that lie next few days," said behind the X on this month's Anthony. ballot paper:—

socialists will gest that a Tory Government is inhibited, precisely because it is a Tory Government, from negotiating with the Com- level they ever had?

They propsector was Michael

Lealiy, a Cagney-faced Irish Australian formerly a railway clerk in Queensland. An alert man, this Leahy-for not long after, in January 1933, he noted a particular stretch of cloud midway along the Bismarcks' castern wall. It was not the usual massy mountain cumulus, but the lighter cloud which rises from grassland.

Unfrightened

It was the prelude to discovery. By April, acting boldly on these clues, Leahy had found the Wahgi Valley—a country which time had gotten, a country of half million people still living in the Stone Age.

man. strangely untrumpered. told in full for the first time by Australian travel author Colin Simpson in his in Plumes

(Angus & Robertson, First of the Stone Age men to greet Leahy were unfrighttall, naively, curious at the sight of clothes and pink skin.

A wealth of bird-of-paradise the people were left to choose, plumes bristled from their headdresses: they were collars of gleaming pearl-shell and carried carved, ceremonial spears.

But it was their plain-clad wives who startled Leahyi Screeching between tears and laughter, they embraced his mourning-have been discour- debentures and liquid assets. followers, claiming them as dead, aged. relatives returned from spirit world.

The valley itself, after dank New Guinea coast. paradisaical — a Switzerland of Christianity. And the Wahgi under the Southern Cross. And claborate ornament groves - still strut about additional bright with flowering shrubs to fringe their tribal dancing wirls not the men-still grounds.

"These people are artists, not savages!" the wondering explorers told each other. Then, amid burned buts they found a dancing ground ravaged by marauders, its trees ringed to death with stone axes—the work of a rival clan.

the staple of valley life. And more than a fibre skirt. 10 Demur, 14 Mason, 16 Stirred, 16 Terror, 17 Portal, 20 Stout, soon they were to sample the same warring temper them-

London Begins To Grow Up By TONY WHITE

T ONDON does not want to be like towering Li New York. It wants to stay much as it has been for centuries, squat, sprawling, year by year stretching farther out on both sides of the muddy Thames, growing out instead

But as its millions pack tighter, architects are publicly saying that soon the city must change; it will have to climb skywards or soon there will be little room left for it to

Their reasons are practical. Building out, they say, uses up far too much valuable space in a small island where land is being built upon at the rate of 50,000 acres a year

They say suburban development is eating into the country "green belts" which separate London from Home County towns and villages.

They say there must be more space in the city to solve traffic problems alone. 🦠 And there are the economics of it; in

these times of rising travel costs, people must not be forced to live farther and farther from the city's centre, where they have their work. Building new suburbs, widening the broad perimeter of Greater London, is no good. London must build more multi-storey flats nearer its heart.

Many Londoners oppose their ideas. And

their reasons are primarily sentimental.

There is St Paul's Cathedral to consider. Its 366 foot-high beauty would be obliterated by brazzy skyscrapers, they say. And so would that of other churches and cathedrals and old buildings which tower a paltry few hundred feet into the city's grey

All the architectural treasures of London - and of any other city - would be lost in the bright, slab-sided incongruity of towering medern blocks of offices and flats.

No, Londoners say, we want to remain

They are proud enough that the nation's highest building, Salisbury Cathedral, is 404. feet high. And it does not matter to them that it is more than a thousand feet shorter than the Empire State building. . .

But some architects are sure that soon the Government will have to pass some kind of law to permit them to plan higher. They do not want Manhatten-siyle buildings, but merely pigmy skyscropers rising 30 to 50

Slowly London is beginning to grow up. Already a 29-storey building is planned for the Thames' South Bank. And flats of 15 storeys or more will go up elsewhere - homes for hundreds on third-of-an-acre sites.

A COLUMN OF THE UNUSUAL ABOUT PEOPLE AND PLACES AND THINGS

U.K. Election Broadcasts Start This

BROADCAST **TONIGHT**

In a special broadcast to listeners in Britain and overseas on April 15, the Prime Minister, Sir Anthony Eden, announced that a General Election would be held in Britain on May 26.

When an election is announced, the BBC makes available certain periods of time for election broadcasts, on sound and television. It is up to the parties to agree as to how the time shall be allocated between them.

The claims of minority parties are considered after Nomination Day, when any party nominating a requisite number of candidates is offered the chance to broadcast.

10TH ANNIVERSARY OF VE DAY

not known.

The Tenth Anniversary of VE Day falls tomorrow, and the BBC is broadcasting several special programmes to mark the occasion. The first one can heard at half past seven this evening, and it's a rebroadcast. of the VE Day edition of Itma, Tommy Handley and Dorothy Summers.

at 6.45 p.m.—"Ten Years Ago" reproduces for listeners recorded actuality recalling VE Day with its rejoicings, its bells and cheering crowds. The prowritten by Bernard also traces the events leading up to victory, and stresses what victory meant to different types of people and what hopes and fears were theirs at the time.

"A QUIET EVENING"

A rubber plantation in Malaya is the setting of the murder mystery which can be heard in Wednesday Theatre this week at half past ning. Called "A Quiet Evening", by S Baillie Reynolds, the story revolves round the discovery of the dead body of a planter-was his death by suicide, murder terrorists? The cast includes John Wallace, Faith Butler, and Bill Phillips, and the play was produced by Margaret Denholm.

Robert Valentino and Jerry Mengo; The most important event in the Gricel-Tange; In the Cool, Cool of sporting calendar in Great Britain is the Cup Final, This year's Cup Final at Wembley will be broadeast by Radio Hongkong, and commentaries by Raymond Glendenning and Alan Clarke can be heard from 11 p.m. this evening.

Newcastle United, who are meet-

ing Manchester City will this year establish a new record in soccer history. This will be their tenth appearance in the Final; till they shared the record of nine appearances with West Bromwich

Racing: A commentary on the Newmarket stakes can be heard on Wednesday evening at 11.25,

RECITAL

In a viola and plano recital from the Concert Hall of Radio Hongkong Wednesday evening Ely Alves (viola) and looke Abwee. (plane) will play Hindemith's "Meditation" Landler by Lee: and Sonatina by T. B. Phfield. The programme is at

EFFICIENCY EXPERT LOOKS AT FOOTBALL AND FINDS INEFFICIENCY

M. MacTAVISH

The boy is father of the man The novice of today is the star of tomorrow. Quotations like these are used freely in many a different context but there is never a greater weight of truth to their meaning than in the world of football.

I have recently been privileged to read extracts from a collection of private recommendations made to an English League Club by a business efficiency expert who had been called in to examine the system which the club had been using for years. The whole thing was kept very quiet because the business expert was no expert in the art of football and the club officials were a little concerned that they might be subjected to a certain amount of light-hearted derision.

out in exactly the same way as the efficiency man would have invertigated the working of a scap factory, a shipbuilding yard or some other, type of business. In his report he said that he was not concerned with the individual ability of players, with temperaments . . . or with money drawn from the turnstiles. He stated that he interested himself only in the 'practical economics of the club's football

policy' and the question which dominated his work was. . "Are the present methods used by this club the best that can be employed to produce success on the field of play. . . . ?

His report is a most interesting document and in different circumstances, might have become one of football's most publicised works, but a couple of the points he makes are universal rather than applicable only to the particular clubs for whom he worked. and I would like to say just a word or two about them here.

The first point he makes is practical that 'inefficiency' is accepted far too lightly down through every strata of the game. He says 'temperament', 'nerves', 'human factor'. 'bad-day'. 'staleness'. 'poor form', 'bad luck', 'one-of- it, too. these-things', and 'didn't get the breaks', are, with other convenient phrases, used and accepted as convenient synonyms for practical inefficiency!

"Such circumstances would never be tolerated in any other form of business and for the purpose of this examination football must be regarded fust that-for if they were accepted in say the motor dustry, the potteries, the shipbuilding world, the radio and television sphere, or in a host of operate successfully or at

HUMAN FACTOR

The human factor is present and it is my opinion that the senior games. acceptance of inefficiency in football is due to the fact that the employers are themselves largely to blame.

Remains Indelibly Printed

By ARCHIE QUICK

David Bone Livingstone Jack fills a niche in footballing history from which he can never be displaced. He was the first man to score a goal in a Cup Final at Wembley. It was an historic goal; it was a memorable occasion this inauguration of what has become the most famous Soccer arena in the world. Wembley today is the focal spot of every player's ambition whether he is foreign or a home product, whether it is a Cup Final or an International.

But that day in April, 1923, will forever remain indelibly printed on the memories of all who were privileged to be there. The huge crowd, estimated at a quarter of a million, burst into the ground and overflowed on to the playing pitch. One remembered the successful efforts of the police, players and officials—and above all the mounted policeman on a white horse—to get the seething mass back to the touchlines. And the drama of the game itself. It was the red letter day in English football.

later to gain promotion from never had a chance; it was too more and more persistent. Division Two. The rival cap- wide off him and I was untains, Smith and Kay, toss, and marked." Yards the match is on. To inside-right Jack falls the honour of the first

Tall, willowy David Jackthe Frank Woolley of footballwho had a body swerve that has never been equalled. WHAT THE BIG LEAGUE CLUBS THINK OF

A SCANDAL WHICH SHOULD RESENTED BY OF SOCCER

By J. L. MANNING

Britain's big League football is being undermined by the racket of under-the-counter-payments to players so that dishonest clubs can, if they wish, get an unfair advantage over their honest opponents.

That is a scandal which should be resented by every follower of our national game.

Today I can reveal what the clubs themselves think of this evil as I have been shown the official, confidential report of a private conference of League clubs held on March 27, 1950—five years ago—and the rackets have grown worse since

At that meeting, I can dis- you what is going on. One office during the game to speak close, Mr Arthur Drewry, the instance I will call the Case of to this player on the phone."

President of the Football The Whispered Telephone Num- "I thought I'd catch an early League, said: "We do not get the ber or Dial M For Money. A League club manager told information which might be common knowledge in football us how he was prevented at the circles!"

Speaking in the secrecy of this highly confidential meeting, the representatives of the clubs told the Football League president a few harsh facts. These are some of the things their spokesmen said:

MANCHESTER CITY: know, who the players are, and we know, who the clubs are. but if anyone came forward his name would be mud. Sums of £100 to £1,000 have been paid

tive is with the Management Committee of the League, and there are "a number of ways-

rents of houses provided for players and the payment of illegal bonuses "which are outside the books entirely." They wanted "stronger action."

DERERS said that one of the difficulties arose from jobs being offered to players outside football and that "strong action should be taken even to the suspension of the club concerned for all time."

greatly respected in the game.

However, if their clubs' spokesmen held those views in 1950, why by 1955 has no concerted action been taken by the League? This is the official background of shady Soccer. Now let me tell "When are you going to

last moment from signing a The player's reply came in a whisper: "My telephone num-The manager named the ber is 850," The player meant player, and said everything was that you had to dial "£" before the "850."

"Couldn't you raise to watch the next home game. money?" the representative of a "The next I knew," said the national newspaper asked the manager, "I was called to my manager. "No. It just wasn't there. Even the programme account was empty," he replied.

they should do it.

So it goes on. These stories are not hard to track down. It is not surprising that the President of the League admitted that they may be "common knowledge in football circles." What is surprising is that no action is taken. Surely, what this newspaper can do, the Football League could do. And

So I shall await with interest the annual meeting of the League in June. Will the clubs be bold-or will they be silent?

Defence And Not - Attack Is The Keystone Of Modern Football

One of the great footballers of all time and now the successful manager of Leeds United. Horatio ("Raich") Carter believes that defence and not attack is the keystone of modern football. That is why he persists in playing the great John Charles at centre-half and not centre-forward. Results show that Carter must be right.

"When I first went into management at Hull" Carter told me "I was convinced that attack, attack, attack again would be my first principle for success. Consequently I bought some star forwards. But it did not work out that way, and now I must grudgingly admit that to succeed in Soccer your first aim must be to stop the other fellows from scoring.

new plan of attack may pull Quigley etc. from scoring. So you through for a while. big John stayed at centre-half." Instances are Manchester City and Portsmouth: But it will not ast. The others will catch up on you sooner or later. Look at Tottenham Hotspur. Defence.

Forever Interesting

WEEPING developments have taken place in America's air mail services since their first stamp was issued.

This thought is brought forcefully to mind by the latest U.S. air mail stamp now on sale in London and illustrated here. It shows the American eagle flashing through the air on powerful wings, much in the way a plane glides when coming in to land.

air mail issue AIR MAHAC was in the year 1918. It was a orange appeared a 16cent green and 24-cent blue and red.

Of these the most valuable the green. It is catalogued a 35s unused and 17s 6d used.

A famous air mail stamp is You can also use a regular the one issued in 1927 to honour the flight across the Atlantic by Colonel Lindberg. It shows cut my plant at various his plane, the Spirit of St Louis. and and his route from New York. placed plant pieces in the open- But the catalogue price of this ings in the toothbrush holder, stamp is only is 6d mint and 8d

What of the new-stamp after several days my cuttings illustrated here? It is perforated 10½ by 11, printed in recess and it costs 6d unused in London. Its future? Stamp values are always a gamble. But air mails are forever interesting.

A Lost Young Beetle

-Pixie O'Cop Took Him Home, But Got No Thanks-

By MAX TRELL

66 NTOW there's nothing to IN worry about," the voice was saying, "you'll be all right. You don't have to do any crying. You're not lost; do you hear? I said YOU'RE NOT LOST." These last three words

Voice of the Law

Knarf and Hanid, shadow-children with turned-about names, sitting by the window when track of the score and vice they heard the voice. They recognised this at once belonging to Pixie O'Cop.

> They ran downstairs and out of doors to see what, if anything, was wrong.

the team will drop a ball, several turns are added to-· They found Pixie O'Cop live," she said. Each player must be at his gether, and the team that holding a young beetle by the hand. The beetle had seven or eight hands, or perhaps only five or six, but Pixie O'Cop kept firm hold of one of them.

> Pixie O'Cop was dressed as usual in a blue uniform a yellow-dandelion-

> Just as they arrived on

"All right! All right! apologise for hollering at you!" Pixie O'Cop said. 'Come now, blow your nose! And stop crying! And I said go hollering again."

A Lost Beetle .

Here Pixie O'Cop sudden ly noticed Knarf and Hanid "Baw!" the young beetle was yelling, "I'm lost."

"That's the trouble with these youngsters," Pixic O'Cop confided to Knarf and Hanid. "They're always getting themselves lost.

address of his house," Hanid

"Beetles don't live in the life of a cop!" houses," said Pixie O'Cop. saying anyway."

"Come now, blow your nose and stop crying," said Pixie

Hanid and Knarf get out into the country. they would try to find out from the lost, little beetle where he lived. Hanid sat him on her lap.

"Now tell me where you

"I don't know," wailed the beetle. "It's under a rock." "Under a rock?" said

Where is it?" "A brown rock," said the beetle. "It's on the other side of the fence. Take me

home ... bah."

Knarf. "Under what rock?

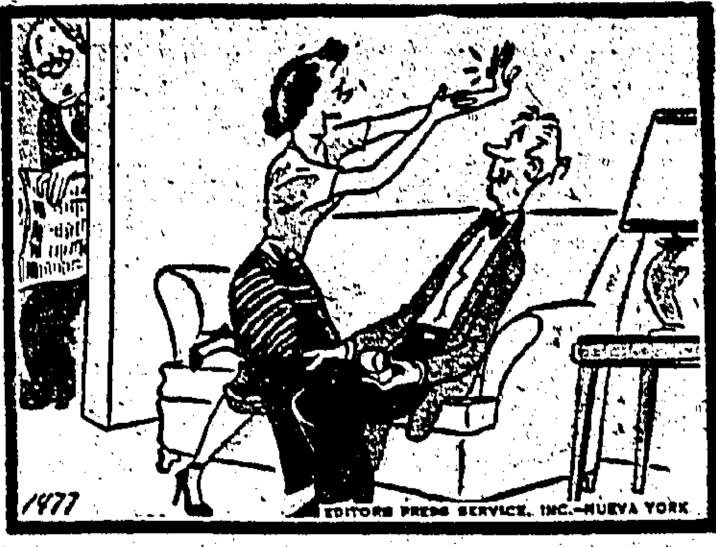

"Oh, well," said Pixie the scene, Knarf and Hanid O'Cop. "we might as well saw Pixie O'Cop kneel down start moving. I think I know in front of the young beetle, the rock he means. It's on then take out a handker- the other side of the garden fence. It's a small brown rock next to a blackberry

Hanid took one of the beetle's hands, Knarf took another and Pixie O'Cop STOP CRYING there I took a third, as they all walked through the garden and under the fence, stopping at last by the brown rock next to the blackberry. bush. All at once, with a yell of joy, the young beetle darted under the rock and broke loose and instantly was gone.

A Policeman's Lot

Pixie O'Cop took off his can and mopped his forehead. "Well; that's how it goes," he said. "I hope he knows the "You find them and you take them back. But never a word of thanks out of them. That's

And though he sighed deeply, "That makes it harder. And Knarf and Handd were quite he's so busy blubbering that sure that Pixia O'Cop loved I can't understand what he's being one and wouldn't have Been anything cise.

"Take me in your arms, hold me tight and tell me how much it cost!"

SATURDAY, MAY 7

DORN today, you are one who should find a career in which B you come in constant contact with the public. You have a talent for knowing how to handle people and this gift will make you valuable in positions calling for friendly public or labour relations. Patient and understanding, you are also a good judge of people and can usually, at first sight, size them up accurately. You have executive ability, also.

In addition to these gifts, you have definite artistic talents which should be developed at an early age. If they are neglected, you may find that you have missed your real role in life. Actually you might put the talents already described to work for you in the field of the arts. You would probably find that management or production would make you most content throughout a long and productive life.

"You are not one who should be too venturesome when it comes to business and finance. Learn to make sure of all your facts, before you expand your interests or you might find that overexpansion leads you into financial difficulty. Steady, serious work rather than "one time long shots" are your best hope for material gains.

Although you are affectionate and even demonstrative among your close friends, you are not apt to be the first one to make overtures. You want to be sure that your affections are returned.

Among those born on this date are: Socrates, philosopher; Anton Seidel, musician; Johannes Brahms, composer; Marcus Locw, theatrical magnate; Gary Cooper, film star; and "Uncle" Joe Cannon, political strategist.

To find what the stars have in store for you tomorrow, select your birthday star and read the corresponding paragraph. Let your birthday star be your daily guide.

SUNDAY, MAY 8

TAURUS (Apr. 21-May 21)- SCORPIO (Oct. 24-Nov. 22)a good idea for you to get out you to offer your services, in in the open today.

GEMINI (May 22-June 21) -Pay no attention to those who are spreading gossip. You will find it is dangerous to depend today and get some real rest on rumour.

CANCER (June 22-July 23)-Nothing stands in the way of your having a restful day with some appropriate recreation.

LEO (July 24-Aug. 23)- easy! If you have an important letter to be written, get it done early. Duty comes first, VIRGO (Aug.: 24-Sept. 23)-Count ten before you give any-

that way will you avoid mis- today. This week will prove a understanding. LIBRA (Sept. 24-Oct. 23)ful days, pile into the car and

one a quick answer. Only in

If at all possible, it would be This would be a good day for some church or community

SAGITTARIUS (Nov. 23-Dec.

22)=Plan to let down tensions

and relaxation. Might visit CAPRICORN (Dec. 23-Jan. 20)-Don't try to solve a difficult problem this morning. Wait

AQUARIUS (Jan. 21-Feb. 19) -Your best happiness may actually be just around the next corner. Be ready for it, soon! PISCES (Feb. 20-Mar. 20)-It's your duty to get some rest

until later on and it will be

DORN today, you are an individual of temperament and moods D which you first must learn to control if you are to control your own destiny. The stars have given you outstanding talents but it is up to you to make the best possible use of them. Even genius can die unknown if it is not developed in the proper channels. Perhaps your one outstanding handicap is your lack of 'self - confidence. You have great ambitions and dreams but have the fear that you are incopable of achieving them. Learn to take the first thing first, and then go on from there. The second step will seem less difficult.

You have a great love of the beautiful in Nature and with

your gift for depicting the beauty of life, you should not fail to make use of this talent. There is, however, a tendency toward despondence, against which you must guard. Learn to take a positive attitude toward life and never permit yourself to worry over what has passed. Gone is gone! Begin from there to build It is likely that you will have a definite message to leave the world in which you live. Even if it is not too popular in

your own times, it is likely that it will outlive you and your fame will increase. You may never be very wealthy, but this does not concern you too much. Among those born this date are: Louis M. Gottchalk, composer; Dante, author; Harry S. Truman, U.S. president; John

Wesley Hill, noted clergyman; and James Hamilton, early South Carolina governor. To find what the stars have in store for you tomorrow, select your birthday star and read the corresponding paragraph. Let

your birthday star be your daily guide.

JACOBY BRIDGE

Provides Tourney Great Examples

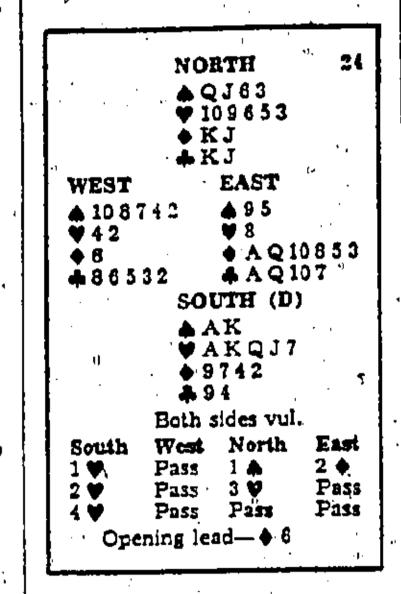

By OSWALD JACOBY

THE recent contest for the Vanderbilt Cup reminded me of one of the hands played in last year's championship. The hand carbe along in one of the early rounds, and it gave Ell Jaye, one of New York's bestknown experts, the chance to commit what many players consider to be the worst possible sin at the bridge table. He trumped his partner's acc.

Eli opened his Singleton diamond against the perfectly normal contract of four hearts. Declarer played the jack from dummy, and East won with the queen. South dropped the seven of diamonds in the hope of confusing East on the whereabouts of the four and deuce.

East couldn't think of anything better than continuing with the acc of diamonds. A Jaye couldn't resist trumping his partner's acc.

As you might expect, from the fact that the play was made by an expert, it wasn't a sin at all West could now lead a club

through dummy, and East was able to set the contract with two club tricks.

If West had failed to trump the ace of diamonds, East would have been left with the lead. He would be able to take one club trick, but no more. What's more, he wouldn't even get that if he failed to take it at once, South could easily draw trumps, cash the top spades, and get to dummy in order to discard clubs on the queen and jack of spades.

If East had known that the opening lead was a singleton, he would have returned a low diamond at the second trick in order to force West to ruff. Because of declarer's falsecard. East thought that his partner had led from a doubleton diamond; and he therefore led the ace of diamonds at the second trick.

He knew, however, that he could rely on Jaye to come through with the right sinful play if he really had no more diamonds.

CARD Sense

Q—The bldding has been: East South Pass 1 Diamond Pass 1 Spade Pass ?

You, South, hold: Spades Q-7-3, Hearts K-8-7-4, Diamonds K-Q-8-5, Clubs 9-4. What do you

A-Bid one no-trump. You are quite satisfied to make this second response since you have 10 points in high cards. If North has 16 points or more, he will make a move towards game; otherwise he will pass or rebid one of his suits.

TODAY'S QUESTION

The bidding is the same as in the question just answered. You, South, hold: Spades Q-7-3, Hearts K-J-7-4, Diamonds A-Q-6-5. Clubs 9-4. What do you do?

Answer on Monday

ALLEGEDLY RUINED

WOMEN

philander" alleged ruined five women was revealed in the divorce

court here today. After three years of harpy marriage, his young wife had discovered he was . "engaged" a professional dancer and had been married twice before. The wife, Mrs Violet Carpen-

ter, 26, was awarded a decree nisi (valid in six weeks) for the cruelty of her husband, John 10 years her senior. The judge related the detail:

of Carpenter's past. He told his wife he was an orphan and a bachelor-in fact his mother and sister were still living and he had been twice

divorced For three years he and his third wife had lived happily together until without warning in 1953 he had vanished two days before they were due to go to Switzerland on holiday.

vanished again Then Mrs - Carpenter covered that four days later he was due to have "married" 23year-old Margot Holden, well-known dancer in Jersey But she too had not seen him

since he vanished. As his wife began to learn the health deteriorated and she changed so much her sister had difficulty in

recognising her. Carpenter's first marriage was dissolved because of his cruelty His second marriage took place in 1946 at Rawalpindi, India and was dissolved on account of his adultery and three months

inter he married again. Carpenter became "engaged" to Margot Holden in 1952 while living happily with his wife who had no inkling of his intrigue. He did not appear in court.-China Mail Special.

Colombo Plan Appointment

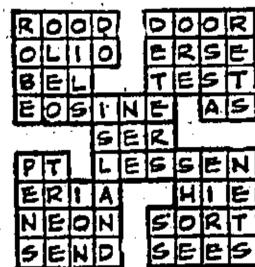

London, May 6. Mr W. D. Sharrooks, 34-yearold Huddersfield teacher, will soon take up an appointment in Indonesia under the technical co-operation scheme of the sixyear "Colombo Plan" for economic development of South and Southeast Asia.

British Treasury nounced that for a year, in the place, he would teach English at Malang.

Mr Sharrocks was assistant lecturer in England and speech training at Huddersfield Technical College.

During the war he served with the Royal Air Force and later was senior English Master et a school in Spetsai, Greece,-China Mail Special.

OUTLINES FAR EAST PLANS

Washington, May. 6. Mr Harold Stassen, Director of the testified before the Senate FOA. today Foreign Relations Committee Administration's aid programmes for the free nations of Asia.

He said: "The most immediate threats to world security and stability are now centred in Asia. As I have indicated, the preponderance of funds requested of the Congress for fiscal year 1956 are required towards meeting the threats to this area, which is our most pressing concern, in need and challenge and in potential for success or failure for the free world.

MAJOR PART "A major part of these funds is proposed for programmes in Korea, Formosa, Cambodia. Laos and Victnam, all of which are confronted with situations of extremo crisis.

"Funds are also within this amount for similar types of support to Pakistan. Thailand and the Philippines, who have firmly and courageously taken their stand on the side of freedom against aggression and are members of the

Manila Part Organisation." Mr Stasson went on: "Funds are also requested for a continuation for development assistance to other countries in South Asia, principally India. 370 million people of India are now engaged in an effort, unprecedented in history, to wage a successful struggle against disease, poverty, illiteracy and general economic distress, under

democratic government. The eyes of all Asia, and in fact of all the world, are and the countries of Asia the focused on this great effort, and time to examine and agree upon are comparing it closely with steps the claims of progress being useful development for the remade by their great neighbour to the East under totalitarian

Silkworms May Go On Dole

Milan, May 6. Carlo Gandini, 45-yearold doctor at Reforbido near Voghera, today claimed to have found a cheap shortcut to the production of silk which may throw the silkworm out of its time honoured job.

said that Dr. Gandini after three years' experiments, he had succeeded in producing silk"directly from the leaves of the mulberry

He claimed that he obtained '20 kilos (44 lbs) of silk fibre from 100 kilos of mulberry leaves. whereas three times this quantity was needed to yield the same amount of silk fibre if you rely on the worm. Dr Gandini declared that he also experimented with other leaves, but only those of the mulberry tree yielded the viscous silk

substance. He added that he was now putting up the technical equipment to process the fibre. - China Mail

BALKAN ALLIANCE

Turco - Yugoslav Differences

Belgrade, May 6.

Mr Adnan Menderes, the Turkish Prime Minister, here on a five-day official visit, had talks with Yugoslav leaders today on what usually reliable sources described as the two Governments differing approaches to the Balkan Alliance and world affairs.

Mr Branko Draskovic, the Yugoslav Government Press chief, told a Press conference that the Balkan Alliance formed between Yugoslavia, Greece and Turkey last August had in a short time yielded very important results.

"It is in the mutual interest of the Balkan allies that this cooperation should continue gardless of how far there similarity in the appraisal various questions," he said. NO REPLY

Mr Draskovic did not reply when he was asked on what subjects there were divergencies. But usually reliable sources took his remark to indicate that Mr Menderes' talks with Yugoslav leaders had confirmed the existence of such diver-

gencies. summed up as follows: to relations of the first degree, that was reported stress the military side of the is by fathers or brothers. Balkan the slavia 🕆
